Company Profile

Bennelongia Pty Ltd is a specialist environmental consulting company. It undertakes surveys and species identifications relating to subterranean, aquatic and short range endemic fauna. The company also conducts broader assessments of wetland and river health and waterbird and shorebird monitoring.

Clients include BHP Billiton, Rio Tinto, Fortescue Metals Group, Hancock Prospecting, CITIC Pacific Mining, URS, SKM, Strategen, Department of Water and Department of Environment and Conservation.

Company Services

Surveys

- Subterranean fauna surveys and identification of stygofauna and troglifauna
- Short range endemic invertebrate surveys and identification
- Wetland surveys and identification of aquatic invertebrates, waterbirds and plants
- Specialist waterbird and shorebird surveys, including aerial surveys

Specialist identifications

- Specialist identification of stygofauna, troglifauna and aquatic invertebrates

Ecological impact assessments and reviews

- Desktop environmental impact assessments and literature reviews
- Peer review of environmental impact assessments
- Expert advice on responses of biota to environmental change
- AusRivAS assessments of river condition

Company expertise

Bennelongia directors had many years of policy and research experience in subterranean fauna, wetland ecology and invertebrate conservation in the Department of Environment and Conservation prior to setting up Bennelongia in 2007.

They have published widely in the scientific literature and undertaken environmental assessments throughout Western Australia.

Examples of past projects

- Stygofauna and troglifauna impact assessments for BHP Billiton Iron Ore, Pilbara Iron, Fortescue Metals Group, CITIC Pacific Mining/Mineralogy, Cliffs and other companies
